This year marks the 49th anniversary of Earth Day, which was created to energize the emerging public consciousness about air and water pollution and to help force environmental protection onto the national political agenda. Shortly thereafter a variety of groups began to form to help clean up America's polluted waterways. In this tradition, join us for a "Trash to Treasure" event in which families will clean up areas of the Patapsco watershed and use the trash and nearby natural materials to create collaborative art pieces that express how the participants feel about why the Patapsco watershed is a treasure that we need to take care of. All the art pieces will be photographed and in the spring five pieces of art from each event in this four-part series will be printed and displayed in a public setting.

### **Catonsville Rails to Trails Hike**

Saturday, March 23, 10AM

Meet at 55 Wade Ave, Catonsville, MD 21228

Spring Grove Hospital was founded in 1797 and is the second oldest continuously operating psychiatric hospital in the United States. It originated in Baltimore City, but moved to the Catonsville location in the 1870s. The Catonsville Short Line Rail Road began service in 1884 and included service to the Spring Grove facility. The Catonsville Rails to Trails organization has converted portions of the Short Line into a hiking/ biking trail, including a section adjacent to Spring Grove.

The proposed historical walk will begin at the trail head of the Spring Grove Short Line trail and we'll provide a 3/4-mile historic walk through Spring Grove and trail, that will discuss the history of the Short Line RR, the Spring Grove Hospital, and the effort to get the rail converted to the trail—the beginning of Catonsville Rails to Trails.

*El Sueño Americano/The American Dream* features 59 photographs by Arizona-based artist Tom Kiefer depicting everyday objects carried by migrants detained after crossing the U.S.-Mexico border.
